

GLOBAL INNOVATION

July 2008

[Something really new](#): A practical, implementable approach to innovation.

[Made in China](#): A glimpse into the future of patent information.

INFORMATION PROFESSIONAL DEVELOPMENT

[Using bibliometrics](#): A new white paper focuses on evaluating research performance with citation data.

[A regional perspective on science](#): 700 new regional journals have now been added to *Web of Science*.

[Benchmarking university performance](#): University of Toronto administrators needed new evaluative metrics to affirm the university's influence and productivity.

[New in ISI Web of Knowledge](#): Register for web-based training (July 30) on citation mapping and other July enhancements.

INTELLECTUAL PROPERTY

[Cocoa genome: breaking intellectual property barriers](#): A new Mars project exemplifies the potential values of removing IP barriers.

[Fast-tracking IP on the Japanese highway](#): Special measures to help SMEs and cross-border IP highways are fast-tracking IP in Japan.

PHARMACEUTICAL KNOWLEDGE

[New business planning tool](#): Pharmaceutical decision-makers have a new factbook to call on.

[New email bulletin](#): Customers now have a single communication channel to tell them what's happening across Thomson Reuters pharmaceutical solutions.

[Trends in regulatory affairs](#): The 2008 Lipient Survey highlights trends in eCTD migration, submissions outsourcing and regulatory product management.

SCIENTIFIC RESEARCH

[H-index](#): The hottest topic in information science today.

[Seen this before?](#): Early detection of research plagiarism.

[Science in Taiwan](#): Research and patenting trends analysis shows that Taiwan has focused strongly on semiconductor research.

[Honoring China's contribution to global R&D](#): Prominent scientific papers and their authors were recognized in Beijing with the first Thomson Reuters Research Fronts Awards.
