

如何跟踪制药行业重要期刊的最新信息？

制药行业的业内人士往往面临这样一个挑战：如何让自己站在行业发展的最前沿？如何始终把握不断推陈出新的科技与商业文献信息？如果没有一个合适的检索策略或者工具，我们很容易被大量的与我们工作无关的信息所淹没，并且，更糟糕的是，我们可能会错过一些重要的评论性信息。设置Thomson Pharma的期刊跟踪，用户可以直接锁定重要期刊的发布信息，并且确保最新信息推出时获得Email通知。

例：设置 New England Journal of Medicine 跟踪，最新一期出版时获得及时通知。

The image shows a sequence of steps to set up journal alerts. It starts with a navigation bar containing 'Home', 'Search Center', 'Browse', 'Personalize', and 'Folders'. Below this is a 'SELECT SPECIALITY' menu with options: 'Biology', 'Chemistry', 'Clinical Pipeline', and 'Clinical Trials'. A yellow box highlights the 'Biology' option, with a bracket pointing to the instruction: '点击任何一个标签，转至 Focused Journals 模块'. The next screenshot shows the 'Focused Journals' page with an 'Alert' button highlighted by a yellow box and a callout box stating '1 点击 <Alert>'. Below the alert button, there is a list of 'New Journals since 12-JUL-2009' with various journal titles and issue information. The final screenshot shows the 'Focused Journals: Email Alerts.' configuration page. It includes a 'Jump to:' field with 'new' and a 'clear' button, and a 'Search for:' field with 'Search' and 'clear' buttons. A list of journals is shown on the left, with 'New England Journal of Medicine' highlighted by a yellow box. A callout box on the right states: '2 从弹出窗口的 <Jump to>或<Search for>选项检索 New England Journal of Medicine from 期刊名称在左边的列表框中显示 点击<New England Journal of Medicine>'.

Focused Journals: Email Alerts.

Select up to 60 Journal Names that you would like to monitor in your Focused Journals portlet using the picklist below.
