

如何对检索结果进行可视化分析-Star Tree

例) 如何分析排尿功能障碍的药物靶标发展趋势

1. Form Search- Drugs 检索治疗排尿功能障碍的药物

① 点击 Search Center

The screenshot shows the Thomson Pharma Form Search interface. The 'Search Center' tab is highlighted in the top navigation bar. On the left sidebar, the 'Drugs' option under 'FORM SEARCHES' is highlighted. The main search area has 'ur' entered in the 'Therapy area (TA)' field, with a dropdown list of suggestions including 'Urinary dysfunction'. A red box highlights this dropdown, and a red arrow points to the 'Urinary dysfunction' option. On the right, the 'Development Status' filter is expanded, and 'Discovery ~ Register' is selected. At the bottom, the 'Search' button is highlighted in a red box.

② 点击 Drugs

③ Therapy area 检索框输入“ur”，选择系统提示的“Urinary dysfunction”，自动完成检索词的输入。
 或 点击 Therapy area 旁的树状图标，弹出控制词表对话框
 (1) 在检索框输入检索词
 (2) 点击 Find
 (3) 与检索词相对应的受控词以粗体显示
 (4) 受控词被自动贴回 Form Search 的检索框

④ 选择 Dev.Status: Discovery ~ Register

⑤ 点击 Search
